Three sample CVs

Important

The CV is a document that should help readers to understand the most important aspects of your education, career journey and skills in a short amount of time. Since everyone's life is different, you will have gained other qualifications than your fellow students. This is why we recommend that you do not adhere too strictly to sample formatting or try to squeeze your resume into a specific format. Instead, chose a layout and structure that help your readers navigate the page with easy. Choose your content in relevance to the position in question and write your descriptions in a way that make it easy for readers to quickly see which experiences and skills qualify you for the job. In short, design your CV as a marketing tool that showcases your details in the most advantageous way possible.

© Technical University of Munich 2023

On the following pages you will find three sample CVs:

1

Hauke Neumann, a Bachelor's student of computer science, applies for a working student position in the field of embedded systems at a German company.

The job advertisement is in German, so he chooses the German language for his resume.

2

Yuthika Nair applies as a Master's graduate of Aerospace Engineering for a full-time graduate position in Propulsion Systems.

The job advertisement (96) is worded in English. Since the company is located in Germany, Yuthika chooses the German format for the CV, but words the text in English.

3

Chris Schmidt is applying for a position to write his Master's thesis at a company in the United States.

Therefore, he omits the photo as well as all personal data from his CV. He also transfers country and TUM-specific details, such as his grades or an explanation for „academy consult", in a way that is easy for a U.S. reader to grasp and interpret correctly.

Please note:
Each country has different standards and preferences for application documents. Before creating your texts, find out what layout and content will be expected and adapt your CV and cover letter accordingly.

BILDUNGSWEG

10 / 2021 – vsl. 08 / 2024

Bachelorstudium Informatik
Technische Universität München

Grundlagen des Programmierens mit Java und C
- Implementierung verschiedener Algorithmen und Datenstrukturen.
- Arbeit mit Threads, Generics und Durchführung von unit tests innerhalb des JUnit frameworks.

Grundlegende Konzepte Betriebssysteme und Systemsoftware
- Anlagenorientiertes Programmieren: Prozess-, Speicher-, Kommunikations- und Ressourcenmanagement; Parallelprogrammierung, Synchronisierungsmethoden und Deadlocks; Concurrency-Modelle (z. B. Petri nets); Compiler / Linker / Loader mit Integration in Bibliotheken.

Rechnerarchitektur und Netzwerkprogrammierung
- Programmierung mit assembler, interrupts und verschiedenen Netzwerkprotokollen.

10 / 2009 – 07 / 2021

Abitur
Robert-Schmid Gymnasium, Wernigerode
Auszeichnung mit Physikpreis der Stadt für bestes Physikabitur

PROJEKTE (UNIVERSITÄT)

Programmierprojekt über zwei Semester

Scrumprojekt mit 5 Personen: Implementierung eines Webservices
- Implementierung eines Webservices bestehend aus front-end Webseite und eines Apache-Webservers und einer Datenbank (zur Erstellung von Gehaltsabrechnungsdokumenten für Mitarbeitende).
- Verantwortung für die Business-Logik (Erstellung der Dokumente, Berechnung und Befüllung mit korrekten Daten).

© Technical University of Munich 2023

Language: The job advertisement is in German, so he chooses the **German language** for his resume.

CV Page 2

Hackathon der Fakultät für Informatik

Implementierung eines Hacking-Tools, das den Speicher von Windows-Minesweeper ausliest und die Lösung (versteckte Bomben) anzeigt (in C und WinAPI).

- Teilnahme an einem Hackathon der TUM School of Computation, Information and Technology
- Entwicklung einer mobilen Android-App für einen Wegfinder von Hörsaal zu Hörsaal (mit Java und Android Studio).

Yuthika Nair

Friedrich-Loy-Straße 14
80796 Munich

yuthika_nair@email.de
+49 (0)177 48473344

Born: 14. April 1994 in Kerala (India)

SHORT PROFILE

Inventive aerospace graduate with over two years of practical experience in the thermodynamic and mechanical design of flight compartments and heat pipes. Experience leading multinational student teams and championing clever, unusual product solutions.

EDUCATION

Apr 2021 – Feb 2023

M.Sc. in Aerospace
Technical University of Munich (TUM), Germany

- Specialization in the fields of: Advanced Thermodynamics, Propulsion Systems and Aircraft Manufacturing
- Master Thesis: *Propulsion system for second stage of space launch vehicle*
- Program consists of courses in both German and English
- Final grade: 1,8

Sep 2016 – Jul 2019

B.Tech. in Aerospace Engineering
Indian Institute of Space Science and Technology (IISST), Thiruvananthapuram, Kerala, India

- One-year project: Design and Development of a hardware test bench for model quadcopter with AutoCAD
- Bachelor Thesis: *Development of a new gyrocopter propeller design (composite structure) to reduce fuel cost* (Matlab)
- Final grade: 1,5

Oct 2012 – Jul 2016

Secondary Education (Abitur equivalent)
St. Andrew's Higher Secondary School, Kochi, Kerala, India

- Graduated with honors

WORK EXPERIENCE

Sept 2021 – May 2022

Working Student for Electronics Development in Aviation Applications
Aerozilla Aerospace, Munich

- Design of schematics, PCB layouts and production data for prototype test setups, control devices and power electronics in aviation.
- Support of the electronic assembly process and small series production
- Participation in development of hardware and testing of prototypes
- Assisted team in electronic part management and procurement

© Technical University of Munich 2023

Language: The job advertisement is worded in English. Since the company is located in Germany, Yuthika chooses the **German format** for the CV, but words the **text in English**.

CV Page 2

Oct 2019 – Jan 2021

Junior Electrical Engineer
Liquid Propulsion Systems Centre, Indian Space Research Organisation, Bengaluru, Karnataka, India

- Development, testing and analysis of heat pipe used in spacecrafts and launch vehicles
- Design and modifications of built-in legacy heat pipes used in spacecrafts
- General acquaintance with spacecrafts and launch vehicle design, development, integration & testing during introduction training program

Feb 2017 – Jul 2017

Intern Mechanical Engineering
ABC Aeroflight, Silicon Valley, USA

- Support of the senior aerospace engineering team in generating 3D CAD (CATIA V5) design schematics for normed compartment system
- Execution of MATLAB analyses of heat transfer between compartments
- Evaluation and testing of manufacturing and assembly operations to ensure design requirements

SKILLS

Engineering Software

- Use of LaTeX, MATLAB, and Simulink extensively at university and for my bachelor's thesis
- Experience with Catia V5 for mechanical designs
- Use of Auto CAD to successfully build a hardware test bench
- Basic experience designing PCB layouts with EAGLE and Altium Designer

General IT Skills

- Java as part of university curriculum
- Operating Systems: Windows and Linux
- MS Office and Google Workspace

Languages

- German – currently enrolled in a B1 language course
- English – C2, all my formal education has been in English
- Malayam – mother tongue

INTERESTS

Sep 2022 – Feb 2023

Project Lead of Propulsion Team
TUM Hyperloop (student team developing prototypes for a new revolutionary transportation system)

- Project management and prototyping of a propulsion system; currently working on three types of injector nozzles
- Leading and motivating a team of 10 students, we are getting ready to participate in a national rocket competition at the end of the year.

CHRIS SCHMIDT

Johannes Christopher Schmidt

chrisjschmidt@tum.de
phone: +49 0160 7766332
linkedin.com/chrisjschmidt

SUMMARY

Detail-oriented Management and Technology student at Technical University of Munich, Germany (No. 1 European university) specializing in Strategy and Innovation. 2+ years of collaborative consulting experience, with a focus on the automotive industry. Skilled at solving complex problems with creative and unusual solutions. Looking forward to writing my Master's Thesis at Big Car Group US and contributing my strong analytical skills and customer-focus to your upcoming projects.

EDUCATION

TECHNICAL UNIVERSITY OF MUNICH, TUM SCHOOL OF MANAGEMENT, Munich, Germany *exp. Jul 24*

Bachelor and Master of Science, Management and Technology *Oct 2019 – Jul 24*
Specializing in the areas of Strategy & Innovation and Mechanical Engineering. Received competitive Germany Scholarship for academic excellence in both degrees (B.Sc. GPA 4.0, (top 10 % of class), current M.Sc. GPA 3,75). Spend one year at Leonard N. Stern School of Business (New York University, US) as visiting scholar.

EXPERIENCE

BIG CAR GROUP, MUNICH, GERMANY *Jan 23 – current*

Working Student Inhouse Consulting Operations & Supply Chain Management
Project: Transitioning Employees from WFH (work-from-home) to the office / business-as-usual
Supporting two senior managers in assessing current state of workforce and outlining a transition plan to increase staff presence and in-office productivity. Transition plan to include specific recommendations regarding potential workplace accommodations, scheduling recommendations and other policy considerations. Currently creating staff communication plan, with recommended transition calendar and contingencies based on country/local guidance.

BIG CAR GROUP, MUNICH, GERMANY *Jul 22 – Dez 22*

Intern Inhouse Consulting Operations & Supply Chain Management
Project: Reengineering of EU Value Chain (Customer-driven complexity reduction)
In a team of three conducted pan-European product combination research, compiled sales and demand data, analyzed data to clarify customer preferences, identified most profitable product combinations and markets. Created recommendation to focus development on the "optimal" market offering and the priority markets. Board approved and implemented a model year line-up, which dramatically reduced complexity and led to substantial savings (to date: $30 million).

© Technical University of Munich 2023

Please note: This is a CV specifically for the **US job market.** This CV is not suitable for an application on the German job market. Due to **US standards,** Chris omits his photo and all personal data.

TUM CHAIR OF PRODUCTION AND SUPPLY CHAIN MANAGEMENT *Nov 21 – Mar 22*

Mandatory University Internship: Production Management
In a team of four planned and created a thorough concept for a new location for a premium truck manufacturer. Executed case studies on the topic of holistic production optimization, company relocation, LEAN production, Industry 4.0 in cooperation with McKinsey, Porsche Consulting and Kearney. Presented results to company boards.

TUM ENTREPRENEURSHIP, Garching, Germany *Apr 20 – Dec 21*

Working Student: Startup Incubation
Learned about start-up culture and infrastructure by facilitating XPRENEURS, a 3-month incubator program for early-stage startup teams. Supported founders with practical arrangements, managed the program platform, helped with event and community management. In addition, completed administrative tasks, such as the migration of excel data and salesforce data management.

EXTRA-CURRICULAR

AMNESTY INTERNATIONAL, Munich, Germany *since Dez 22*

Volunteer
Active member of the "Campaign Against Torture" team. Regularly attending meetups and organizing educational events, signature and post card campaigns. I have several speaking engagements at local schools scheduled for the upcoming year.

ACADEMY CONSULT (student consulting association), Munich, Germany *Mar 20 – Nov 22*

Student Consultant
Received extensive training and worked on five external consulting projects for customers in the mechanical engineering industry: Creation of an internal sales controlling tool for a manufacturer of industrial goods – Cost-saving program in the production of an automotive manufacturer – E-mobility Growth Strategy for a mobility consulting firm – Strategy with a focus on sustainability for a company in packaging manufacturing – Market and trend analysis in the automotive industry

SKILLS

Languages	German (native), English (business fluent), Spanish (advanced – spent a year in Chile in High School)
Computer Literacy	Power Point and Power BI (expert), Excel (advanced), Salesforce (intermediate), GSuite (intermediate), Java and R (basic), SPSS (intermediate)
Trainings	*Successful Negotiation: Essential Strategies and Skills* (University of Michigan on Coursera, 20hrs, completed Sep 2022)
	Participant in *Management Consulting Summer School* (Madrid Business School in Spain, 4 weeks in Feb 2023), case studies, soft skills training and more.

PERSONAL

Sport	Passionate team rower – member of TUM Rowing and NY City University Boat Club, participating in national and international regatta since 2019
Interests	Investing and crypto currency, photography, negotiation tactics
